Nothing to eat or drink after midnight the night before your procedure.

No smoking or chewing gum after midnight the night before your procedure.

Five days prior to procedure STOP taking iron tables, multi-vitamins, vitamin E, fish oils, all anti-inflammatory medications, such as Advil, Motrin, Aleve. You may take Tylenol.

No diabetic meds morning of procedure, you will be brought in early and will be able to take your medication after the procedure is done.

If you have any questions or concerns, PLEASE DO NOT HESITATES TO CALL US.

Please DO NOT WEAR ANY COLOGNE OR PERFUMES OR ANY LOTIONS WITH A HEAVY SCENT.

Please remember to take your Insurance cards/driver's license/forms/referrals for the facility, with you to the facility on the day of your procedure.

Call your insurance company to inquire whether you will have a co-pay or deductible for the facility that you are scheduled at.

Please be aware that you may also be receiving bills from anesthesia, pathology, or the facility where the procedure was performed, not just from the physician's office. These bills will reflect your insurance's policy regarding deductibles and co- insurance.

AFTER THE PROCEDURE

YOU WILL NOT BE ALLOWED TO DRIVE THE REMAINDER OF THE DAY. Please be sure you have transportation and a driver. Our office staff will call you if you need a follow-up appointment and one has not already been arranged.
